Local Red Cross Chapter Publishes the News—Paper Containing Items of Interest From Over the County

For the benefit of the boys in France the Red Cross Chapter has published a four-page newspaper containing nothing but local news of Nodaway county—little items of interest about people and events. For those who find it hard to write newsy letters the "Home News" issued by the Red Cross is just the thing. Everything happening of interest in the county—letters from the boys over there—going and comings of men in the service, etc., are included in the sixteen columns of matter. It is just the thing the boys have been asking for—news from home—and the little papers can be included in an envelope with the home letter, or they may be mailed under a separate cover. Relatives of soldiers at the front can secure copies for mailing by applying at the Red Cross headquarters.

TALK CITY LIGHTS

COMMERCIAL CLUB TO DISCUSS SPECIAL ELECTION TONIGHT

SHOULD BE INTERESTED

Every Member of Club and All Who Seek City's Welfare Urged to Attend.—Meeting at 6:30.

The meeting this evening of the members of the Commercial Club at the dinner to be given at Behm's restaurant, has been called primarily to discuss the lighting contract made between the city and the electric light company and to make such plans as may seem necessary to insure its adoption at the special election to be held October 9. The dinner will be served at 6:30 o'clock and tickets may be had at 50 cents a plate.

Every member of the Commercial Club as well as every citizen who is interested in the welfare of Maryville is urged to attend the meeting this evening and every influence should be used to see that the tax levy proposition to insure public lighting of the city's streets carries by unanimous vote. It is conceded by those who have examined the matter carefully that the contract made with the electric light company is fair and reasonable and it will rest with the citizens as to whether the city shall be lighted or thrown into darkness.

All of the towns in the county supplied by the local light company have voted much larger levies than the one proposed here in order that they may have their streets properly lighted. Without exception the proposal in every town was carried by a practically unanimous vote.

The contract provides that the lights must not be less than $300 a month nor more than $5,600 a year. Under the old lighting contract the cost for street lighting was about $400 a month. Under the new contract all of the lower lights of the White Way may be cut out if the city so orders.

In view of all the facts no argument has so far been advanced that finds weight with the majority of property owners. For the benefit of those who might be opposed to the adoption of the contract on the ground that the lights should be turned off as a conservation measure during the war, it is pointed out that the national fuel administration has control over the matter of street lighting and can order them off at any time. The contract with the lighting company provides the city council may cut off the lower lights on the White Way whenever it is deemed advisable to do so.

The question as to the number of lights the city is to keep burning is a matter for the consideration of the city officials and has no bearing whatever on the proposition to authorize a special tax levy to pay for such lights as may be used.

The Commercial Club has asked the women to aid in seeing that the proposition is carried, believing that they also are deeply interested in having the city well lighted.

German War Office Announces Retirement From Lys and Armentierres —Americans Get Ready for a New Blow in the Metz Region.

Amsterdam, Oct. 3.—Latest information from correspondents at the front is that the Germans are burning Belgian cities in preparation for evacuation. Cambrai is burning, the historical city with its industries is falling to pieces amid a red and black whirlwind of sparks and flames. The Germans have left, but threw as they went their burning torches on the valuable remembrances of ancient France. The Allies who had taken such precautions to save the city, are incensed at the Germans' impious work. The Germans decided on September 1 to burn the city and forced the civilian population to leave.

Paris, Oct. 3.—St. Quentin is burning at several points, according to Premier Clemenceau, who informed Marcel Hutin of the Echo de Paris today that French aviators have great difficulty in flying over the city because of the smoke rising from it.

Paris, Oct. 3.—The towns of Menin and Roulers, railway junctions in Flanders, have been set on fire by the Germans in face of the advancing troops. French guns now control the railway line running from Ostend, thru Thourout and Roulers to Courtrai.

London, Oct. 3.—Announcement that the Germans were evacuating their positions between Lens and Armentierres was hailed by the British press today as the beginning of the long heralded retreat in the west.

London, Oct. 3.—The German war office admits the evacuation of Lens and Armentierres in today's official statement.

Paris, Oct. 3. — With the British pounding the St. Quentin sector, the French renewed their assault in Champagne this morning. The French now hold the important railroad town of Challerange and have also taken Loiver six miles north of Rheims.

With the Americans Northwest of Verdun, Oct. 3.—A heavy bombardmen developed on the American front this morning and it is indicated that Pershing's army is about to make another smash forward. The clearing weather has resulted in increased air activity.

London, Oct. 3.—The Germans have begun a new retreat and are now evacuating all their main defensive works between Lens and Armentierres, the war office reports today. This recent retreat extends over a front of twenty miles. The British are still pursuing the Germans. The British advanced, the official statement said.

The new line extends from Cita Stauguste near Lens to Douvrin, east to Labassee east of Aubers and west of Boisgrenier. This line is almost straight, running north and south from Lens to Armentierres on the Franco-Belgian frontier. The British renewed their attacks north of St. Quentin this morning. The German attack at Cambrai was broken down.

Yanks Take Much Ammunition.

With the Americans Northwest of Verdun, Oct. 3.—The Americans have captured 120 guns of all calibres, 750 trench mortars, more than 300 machine guns, 100 anti-tank guns, 1,000 rounds of shell ammunition and millions of rounds of small ammunition since September 26.

'TIS A POOR EXCUSE

REFUSAL TO BUY BONDS ON ACCOUNT OF SOLICITOR WONT GO

THIS IS VOLUNTEER WEEK

Any Bank Will Take Your Application For a Liberty Loan.—Don't Wait for Solicitor to Call.

Have you bought that Liberty Bond yet, or are you waiting for a solicitor to call on you?

Attention has been called to the fact that in the previous Liberty Loans a number of refusals to buy were made on the pretext that they "didn't like the solicitor."

If there are those who may be planning that for an excuse again—well, it won't go, that's all. This week is Volunteer Week and there will be no excuse for those who desire to purchase. Go to any bank you please and your application will be accepted promptly and you will not need to wait for the solicitor, disliked or otherwise.

No matter what the attitude of the buyer towards the solicitor may be it will be no excuse for a refusal to buy. With an application made this week when solicitors have not yet begun their work, the man who is approached will be able to say that he has been forehanded. Voluntary subscription will be received at any bank or trust company in the county. It's up to the man who wants to do his duty to get busy.

The battle front in Europe is not the only American front. There is a home front, and our people at home should be as patriotic as our men in uniform in foreign lands.

Every American soldier who has fallen in France, every American sailor who has died for his country's cause has given his life for his people. Surely we, their people, can lend our money to our Nation, their country.

The Fourth Liberty Loan is the fight ing loan. Its great success will bring comfort and encouragement and a deep sense of pride to our army and our navy, and to our allies; it will bring discouragement to our enemies. Its success means American victory, Prussian defeat.

The fourth loan is the fighting loan, the soldiers' loan.

The Evacuation Began After the Armistice Was Signed.—Hands Arms Over to the Allies.

Paris, Oct. 3.—Bulgaria already has started fulfillment of the conditions under which she was granted an armistice. It was learned from authoritative sources today that the Bulgarian Army is being disbanded, arms and munitions are being handed over to the Allies. Entente troops are taking charge of the railways.

Anti-German and pacifist riots are in progress throughout Bulgaria, according to a Zurich dispatch to the Journal. It is added that rumors are current of the formation of a national cabinet in Bulgaria under the leadership of Premier Malinoff and Doctor Chenadieff, released from prison a few days ago, under a pardon by King Ferdinand.

CITIZENS, BE ON YOUR GUARD!

Watch out! Be ou your guard, Americans! Presently the German government will step forward, washing its Judas hands and smirking conciliatorily.

"Come; let us patch up our differences. Why go on with this murder, when a little quiet talk may settle it? Why, we will give up Belgium, Northern France, even Alsace and Lorraine. We won't talk about indemnities. And who the devil cares for Russia? Come on; let us get together and talk it over."

Americans, watch your step. Fathers, mothers, sisters, wives, mind your eye. Here comes the deadliest menace of all. For there will be thousands of well-meaning men and women—kindly well-meaning people who will never learn anything, who were born wobble-kneed and weak in the tear-duct—who will throw up their hands and wail: "Oh, my friends, let us be merciful! Let us stop this horrid war before all youth is wiped out. Let us forgive! In Christ's name, let us forgive!"

Americans, in the name of Christ, stand firm! For if this isn't a war for Christianity, there never was one. Germany's god is not ours. Germany has vaunted the fact.

No mercy until the Hun—all of them, from the Kaiser down—is beaten, beaten, beaten to his knees, made to understand the white man's horror of what his war-lust has spewed forth upon an innocent world.

Remember the Lusitania!

Remember the priests and the nuns!

Remember the wives and daughters, the little children!

Remember our hospitals!

Remember the poisoned wells!

Remember the crucifixions of our soldiers!

Remember the blood that cries up from French soil!

Vengeance As an American citizen I demand it of my government. A white man's vengeance; retribution; restitution. I demand it in the name of my brothers—my common brothers who have died in France, who are dying this moment, for those who will die tomorrow!

We shall talk of mercy and forgiveness only when we have finished the job we have started out to do!

So take care, pacifists! We true Americans are in no gentle mood. We have no desire for the incursion of white-livered, wobbly-kneed emotionalists into the field we have so recently chosen for ourselves. We did choose it. And by the same token we shall finish it. Germany wanted WAR. By the living God, she is going to get it, a brimming cup of it. When we have forced the draught down her bloody pirate's throat, we'll talk of peace and mercy and forgiveness.

But all pacifists are warned to keep clear of our road until then!—Harold MacGrath.

Watch out for the fellow who tells you, "I opened the window and In-flu-Enza." Keep the windows open and the house well ventilated and "Enza" won't get you.

A charming young female named Floy
Was clever and chummy, but coy;
In the parlor, I'm told,
She was frequently cold—
But out in a motor, O, Boy!

The news went out from the American front that the Americans were well fed and were eating white bread. The Huns heard of it and the next day 15,000 were captured.

It's moving time for the kaiser's army. Buy another Liberty Bond.

One advantage of being a bachelor is that one can wear hair of two or three different colors on his shoulders without having to explain to anyone how it happened.

The average reformer feels that he is wasting his life and utterly failing in his mission if he is not interferng wth the pleasure of somebody else.

How fashions change! Years ago mother wore three petticoats summer and winter. Now daughter manages to wear one of just sufficient texture to enable her to get by the law.

It is all right to be polite but unless you are careful you are likely to overdo the thing and arouse suspicion.

When a woman has her picture taken she is generally in favor of having as much of her neck and body show as possible. A man don't give a hang whether he reveals any of his anatomy or not so the creases in his trousers show to advantage.

At the country sales these days it is hard to tell which are the more numerous, the buyers or the candidates.

We notice that since the collapse of Bulgaria the "unspeakable Turk" has suddenly found his tongue.

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs.

This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarlem Oil is inclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a small swallow of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease.

Do not wait until old age or disease have settled down for good. Go to your druggist and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

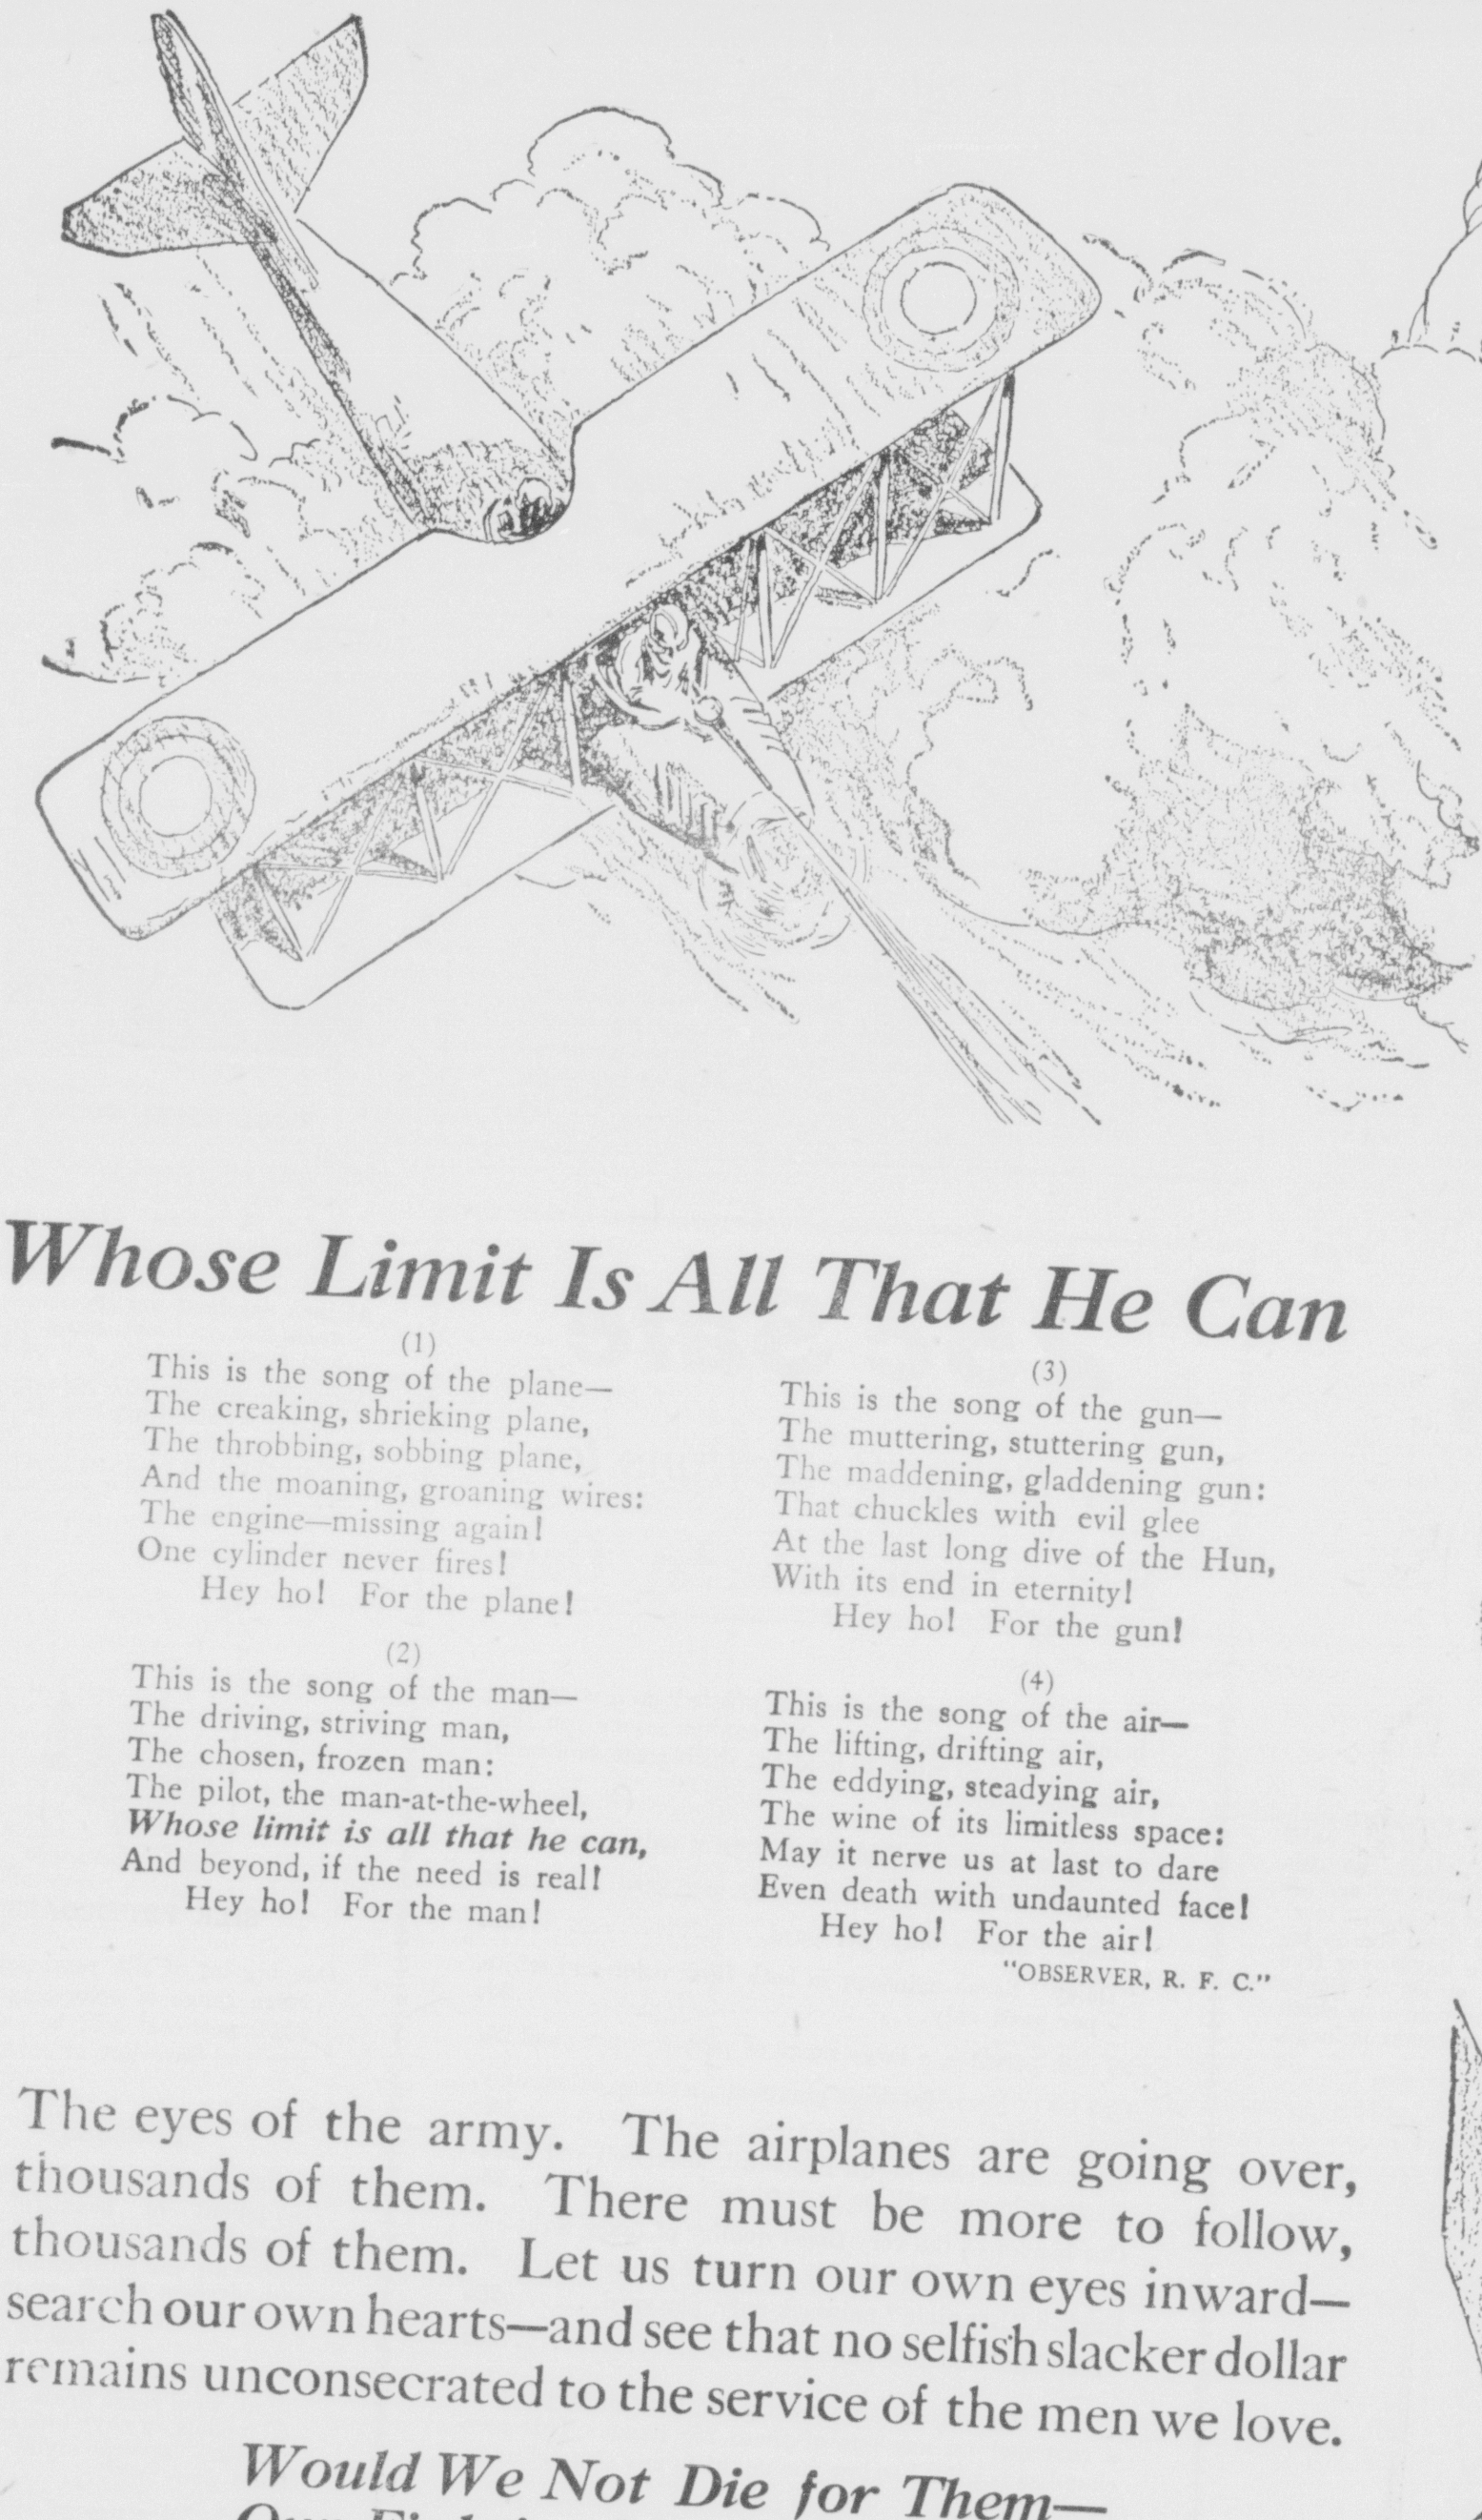
Carpenter, The Kodak Man



Whose Limit Is All That He Can

(1)
This is the song of the plane—
The creaking, shrieking plane,
The throbbing, sobbing plane,
And the moaning, groaning wires:
The engine—missing again!
One cylinder never fires!
Hey ho! For the plane!

(2)
This is the song of the man—
The driving, striving man,
The chosen, frozen man:
The pilot, the man-at-the-wheel,
Whose limit is all that he can,
And beyond, if the need is real!
Hey ho! For the man!

(3)
This is the song of the gun—
The muttering, stuttering gun,
The maddening, gladdening gun:
That chuckles with evil glee
At the last long dive of the Hun,
With its end in eternity!
Hey ho! For the gun!

(4)
This is the song of the air—
The lifting, drifting air,
The eddying, steadying air,
The wine of its limitless space:
May it nerve us at last to dare
Even death with undaunted face!
Hey ho! For the air!

JOIN THE BETSY ROSS CLUB

Many Signers to Pledge to Display the American Flag Out of Doors From Sun-up to Sun-down.

The names of quite a number of people were placed today on the roster of the Betsy Ross Club, which is hung on thesouth wall of the Montgomery-Cummins clothing store. The campaign opened at noon and within a short time over fifty names were signed.

An interesting picture and document is hung above the roster. It is the membership certificate of W. L. Rutledge in the American Flag house and Betsy Ross Memorial association, and on it is an excellent photograph of Betsy Ross and the first American flag and the house in which she lived. The picture and certificate is the property of Mr. Rutledge's daughter, Mrs. E. R. Belcher, and was loaned for this occasion to the D. A. R., who is sponsor for the Betsy Ross Club.

This club is started simply to increase the expression of patriotism among people by asking them to pledge to display the American flag out of doors from sunrise to sunset. No money is asked or no formal duties other than signing the pledge and displaying the flag. Mrs. Lawrence Ogden and Mrs. Dale Bellows are in charge of the work.

TRANSLATE FRENCH LETTERS

Miss Floyd, French Teacher at the Normal Offers Services for Those Who Have Letters in French

With the closer relation of the people of America and France following the arrival of our boys over there letters in French that are puzzling the recipients have been received by Maryville residents. For the benefit of those who desire a translation of letters in French, Miss Floyd, French teacher at the Normal, will be glad to give a translation of any such letters. Also, there may be those who would write a letter in French to some resident of that country and Miss Floyd offers her services gratuitously.

The class in French at the Normal this year is the largest in the history of the school and good progress is being made in learning both the oral and written language of our friends over on the other side.

Western Women Copy Maryville Event.

The Democrat-Forum received a telegram yesterday from Mrs. M. E. Donahue, Lowell, Wash., asking for a copy of the paper of June 12, in which was given an account of a military wedding staged for the benefit of the Red Cross. The beauty and novelty of the affair had been heard of by the women of Lowell and they wanted to give a similar one for their auxiliary. The Maryville event was under the direction of Miss Ora Barmann and was given for the benefit of the Friday evening Red Cross auxiliary of which she is instructor. The wedding was given at the First Christian church on the night of June 11, and was a very charming and attractive affair.

There's a Man in Our Town Who—

There is a man in our town who is mourning the loss of a good portion of a choice bottle of snake bite cure which he was saving against the spring influx of striped wrigglers. Last week, wife was helping at some of the women's affairs which often keep them away at lunch time and husband-man said he would take lunch downtown. In the meantime, his mother came in for a little visit and said she would get him a home lunch. With his mouth watering for some of mother's cooking husband hurried home at noon. On the table was sliced cucumbers which looked mighty fine but smelled just a little queer. One long sniff and husband inquired of mother what she used for dressing. "Why the vinegar in the bottle in the pantry" answered the mother. "Are they not good?" They were good alright. Mother had used the bottled-in-bond and husband ate all he could hold and carried the rest to town in his pocket and sucked them dry, so he says, to conserve.

DONATE FOR LINEN SHOWER.

Red Cross Urges That Materials be Contributed Instead of Purchased.

The Nodaway County Red Cross Chapter calls attention to the following from the bulletin regarding the linen shower:

The plan referred to, known as the "Linen Shower," was to ask each family to contribute one article or a set of articles of household linen from their reserve stock. In this way, without material reduction either of the household stock or of the sources of supply, large quantities of useful articles may be secured for Red Cross work and it is hoped that Chapters in all parts of the country may be willing to join in this plan of filling the present requisitions.

The articles must be new or substantially new and should be of strong rather than fine texture. Whenever possible to obtain new material without purchase.

Under no consideration can an auxiliary of the Red Cross spend any funds which they may have on hands without the permission of the chapter or their branch officers.

In the present Linen Drive, the order from headquarters are that these materials be taken out of the family supplies and not be purchased new.

Appreciative Women.

How often is the question asked, "Are the testimonial letters published in the advertisements of Lydia E. Pinkham's Vegetable Compound genuine and true?' In answer to that question we want to answer most emphatically yes; and it is gladness for health restored by the use of Lydia E. Pinkham's Vegetable Compound after weeks, months and sometimes years of suffering that has prompted these women to write such letters in order that other women who suffer as they once did may profit by their experience." —Adv.

H. S.-STANBERRY GAME

Local Football Season Will Open Tomorrow—Coach Zeigler Says His Men Are in First Class Shape.

The Maryville-Stanberry football game, the first game of the season on the local gridiron, will be played tomorrow afternoon instead of October 11, as has been previously announced. Coach Zeigler said today his men were in good shape for a hard battle and would give a good account of themselves.

The line up will be selected from the following players: Bennett French, Dean Partridge, Harold Houchins, Virgil Robinson, Donald Williams, Jesse Boatman, Dean Campbell, Russell Allen, Richard Kirby, John and Harry Price, Floyd Foreman, Claude Pierpoint, Paul Miller, Eugene De Armond and Wesley Hagins.

Stanberry opened the season last Friday in a game with Pattonsburg in which the Stanberryites took the big end of a one-sided score. The game on this account gave little indication of what may be expected from the bunch from Gentry county. Maryville and Stanberry are ancient enemies in the game of pushing the pigskin and patrons of the game when the two come together are always sure of seeing a hard scrimmage. The game tomorrow will be played on the Normal gridiron.

WHY NOT RAISE FISH

FISH COMMISSION WILL STOCK PONDS IF THEY ARE BUILT

IS NO LAY OUT FOR FEED

Farmers Are Urged to Turn Waste Space Into Fish Ponds—Will Be Source of Profit and Fun.

With the high cost of food supplies the question of providing meat for the family table is among the problems that must be solved. One resident of the county has taken the advice of the government and is building a fish pond on his place where he expects to raise a large part of his meat supply in coming years.

In this connection the State Fish Commission has the following to say, having issued a bulletin urging the building of fish ponds that would provide a staple meat for everybody.

"To supplement the work of the State Fish Commission, the department is extremely desirous of securing the co-operation of the farmers of the commonwealth, because if the farmers will take up the culture of fish, they will be able to add largely to the food supply of the people. The capabilities of an acre or two of land in raising fish is but understood, yet a small area of water will raise thousands of pounds of fish. The fish after they are planted require little care, not near the care of poultry and will bring just as good results. The fish will be self supporting and therefore is the only live stock on the farm that does not require a layout for feed. There is hardly a farm of any size but has an acre or more of waste land. Several farmers might unite and prepare a pond of larger size than an acre, and therefore capable of raising more fish. The first cost of the pond would be the excavation and banks, but that pond would clear out the waste ground, ugly to look at and baneful from weeds that it constantly raises. Therefore, instead of an eyesore there would be a delight, for a glimpse of water adds to the beauty of the scenery, and fishing in the pond would be a continual source of food and recreation. The Fish Commission stands ready at any time to furnish any information they would desire as to the construction of the pond and the care of the fish that are supplied free upon application. Two hundred fish will be ample to begin the stocking of the pond, and it will not be long until the pond is a source of profit, a change of diet and a watering place for stock and affording the sport of fishing."

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes —Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

MUST GO SLOW ON GASOLINE

Unless Motorists Cease Wasting Fuel Oil Government Will Take Control of Distribution.

Copies of the letter lately prepared by the federal fuel administration upon the subject of the use of gasoline are being sent out by secretaries of the various automobile clubs in Missouri.

The letter says that unless the wasteful methods in the handling and use of gasoline are at once corrected, it undoubtedly will be necessary for the government to take over the distribution and uses of gasoline. Motorists would then be required to conform to more severe control, the fuel administration says, and it is therefore to the motorists it must go with a campaign of education.

It is urged that owners of motor cars refrain from unnecessary driving; that they see to it that the engines of their cars are not permitted to run while the cars are standing; that tanks be not overfilled, and that carburetors be adjusted to use of the thinnest possible mixture.

If sufficient gasoline and oil cannot be saved from what is now wasted, then such mandatory control as will insure a sufficient supply for war purposes will be taken by the fuel administration, it is warned.

S. A. T. C. Students Must Sacrifice Morpheus on the Altar of Mars.

The 8 o'clock class has been in the past the bane of Normal life. Most students frankly avoid 8 o'clock classes on their schedules.

With the S. A. T. C. now a reality, reveille will be sounded regularly at 6:30 or sooner. The "8 o'clock dodger" will be forced to rise at that hour along with the rest of the soldiers.

A few years ago wails would have arisen at the mere thought of such a thing. But now that we are at war the student is willing to sacrifice Morpheus on the altar of Mars — especially since he can't help himself.

FORMER SHERIFF A. R. ANDERSON NOW ENDORSES TANLAC

Prominent Houston Man Says, "Money Could not Buy the Good It Has Done Me."

"Money could not buy the good Tanlac has done me, and I gladly recommend it for what it has done in my case," said Hon. Archie R. Anderson of Houston, ex-Sheriff of Harris Co., recently.

Mr. Anderson is unquestionably, not only one of the best known, but one of the most popular men that ever held public office in 'The Lone Star' state. After serving as Deputy Sheriff of Harris county for twelve years, Mr. Anderson was elected Chief of Police of the city of Houston. He had occupied this office only a short time when the Sheriff of Harris county died. Mr. Anderson's friends persuaded him to make the race for the unexpired term of Sheriff to which he was easily elected. He was honored with re-election seven different times and served the people in this important office for fifteen consecutive years. Four years ago Mr. Anderson declined re-election and retired to private life. He cast his lot among the people of Houston and is a large property owner and foremost citizen of this interesting and prosperous city.

"I was in a run-down condition," continued Mr. Anderson, "and had no appetite at all. I could hardly sleep at night and never felt like getting up in the mornings, I was so tired. I had the worst form of indigestion, suffered all the time from gas on my stomach and was continually belching up undigested food. I had to take my coffee without sugar, as when I drank it with sugar, I would just belch for hours. I would bloat and swell up like I was poisoned and suffered with neuralgic pains of the worst sort, and nothing seemed to help me only in a temporary way. I just can't tell you how I did suffer for the past four years and up to the time I began taking Tanlac, a few weeks ago.

"When I read the testimonials of some who had been relieved of troubles like mine I just felt like I couldn't make a mistake by taking Tanlac and it has done even more for me than I had expected. I began to feel better after taking my first bottle and have just now started on my third and I'm a different man already. I sleep like a log now and eat just any and everything I want without the slightest discomfort afterwards. I am glad to endorse Tanlac because it does the work and I'm telling all my friends just what I'm telling you. I never felt better in my life than I do since taking Tanlac. I am willing for you to publish my statement and let every suffering person who may wish, benefit by my experience with this great medicine."

Tanlac is sold in Maryville by the Koch Pharmacy. Adv.

THINKS VICTORY IS CINCHED

Floyd Reynolds Enjoys the Job of Pounding Germans.

Floyd Reynolds writes to his father, Cyrus Reynolds, that he thinks the Germans are as good as licked now. Mr. Reynolds has two sons, Floyd and Henry, in service in France.

France, Sept. 3.

Dear Father: I will take the time and pleasure to drop you a few lines and let you know I am in the best of health and hope you are the same. Henry is getting along fine the last time I heard from him. If you don't receive mail regular, don't worry for there is so much mail, it is a hard job to handle. I am sure he is writing. Don't worry about the tobacco for me, as I get plenty of it now, but am a little shy on sweet stuff. If you will notice the papers along about this date the Yanks are sure giving them hell and it looks like a cinch to me now, but it might take some time yet.

The weather is different over here to what it is over home. It is pretty chilly here. I met a boy from Maryville today and he likes it fine he said.

Well, I will close and hope to hear from you in the near future. I remain as ever, Your son,

FLOYD REYNOLDS,

Hardly a Drugstore in the Land That Does Not Sell This Remedy

On the Market Half a Century.

When you are in perfect health, and are enjoying a strong and vigorous vitality, it is then that your blood is free from all impurities.

You should be very careful and give heed to the slightest indication of impure blood. A sluggish circulation is often indicated by an impaired appetite, a feeling of lassitude and a general weakening of the system. It is then that you should promptly take a few bottles of S. S. S., the great blood purifier and strengthener. It will cleanse the blood thoroughly and build up and strengthen the whole system. S. S. S. is sold by all druggists. Valuable information about the blood supply can be had free by writing to the Swift Specific Co., 24 Swift Laboratory, Atlanta, Ga.

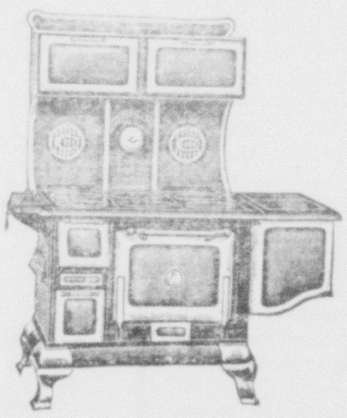
Come and see the Asbestos SWEAT

See and Know for Yourself



SEE WHY COPPER-CLAD RANGES DO NOT RUST OUT.

A section of a range body is heated and there on the iron body is the sweat from the asbestos. You see just exactly what happens every time you build a fire in your range. You see why the sheet of copper is used and what it does and how it does it.

SAVE A THOUSAND SHOVELS OF COAL EVERY YEAR.

You know how the many walls and air space of a thermos bottle hold the heat. You know that a house with a single wall is not as warm as the house with two walls and an air space. You know that storm windows, two windows with a space between, are much warmer than a single window even if it is as thick as the two windows.

The Copper-Clad Range has four walls and an air space. See what it means in fuel saving. See how the heat is wasted by radiation on the three-wall construction and how it is saved by the four-wall thermos construction.

Copper-Clead means that a sheet of pure Copper is placed BETWEEN the sweaty asbestos and range body. To place it elsewhere would be like climbing on top of a roof to get out of the rain.

OUR COPPER-CLAD RANGE DEMONSTRATION STARTS OCTOBER 14.

FOURTH LIBERTY LOAN is our next national objective. There is no geography or politics in the patriotism of this country, this state or this county.

OUR QUOTA IS $1,283,000. To oversubscribe it quickly is twice as good a war measure as doubling it only after weeks of effort. It's the quick blow that has the punch.

You can verify Maryville endorsement. Read this:

James C. Lornson, retired farmer, 1023 N. Mulberry St., says: "Whenever I have a little stiffness in my back or pain across my hips, I use Doan's Kidney Pills. At one time when my kidneys were badly congested and I was all crippled up with the lame back, Doan's removed all the pain and misery and fixed me right up. They also removed the dizziness and improved my health in every way. I never fail to praise Doan's Kidney Pills when I have a chance."

133 MISSOURIANS KILLED

Secretary State Historical Society Has Compiled Record of Casualties in the War.

Columbia, Mo. — Casualties among Missouri men in the war up to September 2, numbered 593, according to statistics kept by Floyd C. Shoemaker of this city, secretary of the State Historical Society.

His record shows St. Louis casualties of 229, or 38 per cent of the total for the state.

Missouri's casualties are divided as follows: Killed in action, 133; died of wounds, 45; died of disease in France, 45; died from accident and other causes, 12; missing in action, 26; prisoners, 6; wounded, 270; died in United States, 35; killed, wounded and missing at sea, 21.

Shoemaker's list also shows that 39 Missouri soldiers have been decorated with war medals of the United States, France and England or Italy, and 30 cited for special honors.

3 Dead in Subway Accident.

New York, Oct. 3.—Three are believed to be dead and eighteen are known to be injured in a rear end collision between two subway trains.

In Sweden one cannot buy drink without buying something to eat at the same time.

Despite the war, Great Britain produced nearly 250,000,000 tons of coal last year.

There are in the British Isles nearly 8,000,000 inhabited houses—sufficient to make two streets of two rows each long enough to connect London with Madrid.

Because of the coal shortage many of the smaller industries in Ireland have arranged to convert their plants, where practicable, to suit the burning of peat.
